Full Stack Software Developer

WHO AM I?

I'm a full stack software developer with a passion for the web and computer graphics. I'm user-focused and care deeply about whatever I work on. I'm proactive and highly organized, with a strong ability to juggle multiple tasks at once.

- TypeScript/JavaScript
- React/Solid.js
- HTML/CSS/SASS
- Phoenix/Elixir
- Ruby/Rails
- GraphQL
- Golang
- Postgres/MongoDB

EXPERIENCE

- Mar 2024 – Jan 2026
1 year 11 months
- Software Developer** **ReturnBear**
Built core app and return portal for return case management. Designed and built UI component library and established frontend best practices.
Phoenix / LiveView / Elixir
- Apr 2023 – Mar 2024
11 months
- Senior Software Developer** **The Bricks**
Developed rich text editing features, chat interface, and global search. Implemented LLM-based text generation and Stable Diffusion-based image generation. Implemented reactive user onboarding system. Implemented numerous UX improvements.
Solid.js / TypeScript / ProseMirror / Golang
- Apr 2021 – Sep 2022
1 year 6 months
- Software Developer** **Stripe**
Designed and architected ProductConfig system to facilitate the deployment of Stripe products to Connect customers, implemented initial version of Automatic Payment Methods.
Ruby / React / TypeScript / MongoDB
- Oct 2013 – Mar 2021
7 years 6 months
- Staff Software Developer** **Shopify**
Led development of core admin features, shipping systems, and order management. Solely built shipping label purchasing system responsible for generating and purchasing hundreds of thousands of shipping labels per month. Published on the Shopify Engineering blog and mentored colleagues. Developed working processes for React page conversion, team communication, and cohesion.
Ruby on Rails / React / TypeScript / GraphQL

EDUCATION

2007 – 2013 **Bachelor of Computer Science, Honours, Co-op** **University of Waterloo**

PROJECTS

- 2025 – current **Unannounced Videogame**
Nearing completion of the launch of my first videogame on Steam
- 2024 – current **kyoubenkyou.com**
The world's fastest Japanese-English dictionary and suite of quizzes for learning Japanese

HUMAN LANGUAGES

English - native
Japanese - not terrible

HOBBIES / INTERESTS

I love videogames; they put me on my life path. I love playing with all forms of generative AI art, watching anime, and studying Japanese. I have a flock of chickens.

WHY YOU SHOULD HIRE ME

I'm a quick learner and an incredibly hard worker. I'm motivated to work my hardest all day long because I love the sense of satisfaction and accomplishment that brings.
